**Shorttitle**

AGR0100151 - Necropsy Tables

**Change Description**

The Department of Agriculture respectfully requests two non-substantive changes to Controlling Board AGR0100151. The Department requests the amount to be changed from \$78,982.00 to \$76,397.10 based upon the actual amount of our allotment. In addition, the Department requests a Waiver of Competitive Selection. The Department failed to check the box denoting a waiver request. The purchase was deemed to be sole source from Thermo Fisher Scientific for the following reason. Each of the tables are mounted in a cavity in the floor of the necropsy room. The cavity has a ceramic lip surrounding the cavity. The Thermo Fisher table base fits in the cavity without requiring any modification to the building floor. They are replacing older Fisher Scientific necropsy tables that were part of the building construction 15 years ago. If another brand of table was purchased the cavity would require modification's at an additional expense over and above the cost of the tables. Modifications would also require the necropsy facility to be out of service for the duration of the demolition and construction period. When this facility is out of service regulatory testing cannot be completed. The Department thanks the board for their consideration of these changes.
