Columbus, OH 43215-3457
RE: Non-Substantive Letter to Correct Controlling Board Request DAS0100613 Submitted for the Meeting 9/10/2012
Dear Mr. Cole:
The Ohio Facilities Construction Commission (OFCC) respectfully submits this letter for a non-substantive change in regards to the original Controlling Board Request for the former State Architect's Office (DAS), DAS0100613, which was approved on September 10, 2012. This Non-Substantive Change request is to correct the request to release \$59,599.80 for Eagle Electrical Services under the Energy Conservation Project. The change requested is from ALI C10013 to ALI C23016. The merge of the State's Architect's Office with the Ohio School Facilities Commission to form the Ohio Facilities Construction Commission was effective on 9/10/2012 (H.B. No. 487). Therefore, the coding on the Controlling Board was incorrect after that date thus requiring a request for change. Please accept this letter as our request for a Non-Sub Change to correct coding on Controlling Board number DAS0100613 in the amount of \$59,599.80 to Fund 7026 ALI C23016. Sincerely,
Tammy A. Brown
Business Operations Administrator
