## **Shorttitle**

DEV0102047 - Beavercreek LGIF

## **Change Description**

On July 9, 2012, Controlling Board approved the release of Local Government Innovation Fund grant and loan funds in the amount of \$6,426,493 from fiscal year 2013 in support of 51 Round 1 projects located throughout Ohio (DEV0102047). The Ohio Development Services Agency respectfully requests a non-substantive change to Controlling Board request DEV0102047, to reflect the withdrawal of Beavercreek Township's \$197,000 loan project. This withdrawal changes the total release of Round 1 Local Government Innovation Fund (Fund 5KN0, ALI 195645) funds from \$6,426,493 to \$6,229,493 specifically, reducing the total amount of loans awarded from \$2,964,000 to \$2,767,000 and the total number of loans awarded from 10 to nine. Following Controlling Board approval, the Beavercreek Township project changed specifically, two collaborative partners dropped from the project (Jefferson Township and Wright State University) and two new collaborative partners joined the project (City of Beavercreek and Green County), simultaneously expanding the overall scope of the project. As a result, Beavercreek Township's project was withdrawn, revised, and re-submitted to the Ohio Development Services Agency as a Round 2 project and brought before the Local Government Innovation Council (LGIC) for funding consideration. The LGIC approved Beavercreek Township's new \$465,000 loan request on September 20, 2012, and the project has been submitted for Controlling Board consideration at the October 29, 2012, meeting (DEV0102172).
