Shorttitle

DEV0102095 - TechColumbus

Change Description

On August 20, 2012, the State Controlling Board approved the Ohio Department of Development (now known as the Development Services Agency)'s request, DEV0102095-13, to release funds to TechColumbus (the “ Grantee”) to advance the Edison Incubator Services in the City of Columbus, Franklin County. Subsequent to CB approval, Development became aware of the request mistakenly referencing an incorrect funding amount. Development requests approval of a non-substantive change to lower the approved amount to \$175,000.00, as this amount will accurately reflect the approval of the Industrial Technology and Enterprise Advisory Council's (ITEAC) vote that took place on August 9, 2012. All other terms and conditions of the original CB request are the same as presented to CB for approval. Your cooperation and assistance in this matter is appreciated.
