Shorttitle

Bentley Systems Inc. Contract Amount Change

Change Description

President Cole, On August 20, 2012, the Controlling Board approved Controlling Board No. DOT0100259-2012 which approved a request by ODOT for a waiver of competitive selection for Bentley Systems Inc. to release \$1,066,575.87 from line item 779491, Administration-State, to provide software licenses and maintenance for existing software for the support for highway construction plan development, and hauling permits. Since the request was approved, the ODOT Special Hauling Permits Section has renegotiated a change in scope and, as a result, a lower price for services with Bentley Systems Inc. As mentioned, the item itself was a contract for a wide range of services provided by Bentley totaling \$1,066,575.87. A portion of that item was a personal services contract for Superload Enhancements in the amount of \$230,700. ODOT Special Hauling Permits Section has now renegotiated an amount of \$226,400 for a lesser scope of work for Superload Enhancements. We would like for the Controlling Board item to be changed to reflect this change. We respectfully ask for your approval of this request. Respectfully, Michael J. Evans
