Change of Funding Information

Change Description

The Board of Pharmacy formally requests a change of funding information for Waiver of Competitive Selection request PRX0100035. The change the funding information is from FED 3DV0 887607 Enhancing Ohio's PMP to DPF 4K90 887609 Operating Expenses for FY16. There is a remaining obligation against the grant which actually ended March 31, 2016. The invoice was received in April after the grant was closed. The need is to honor the obligation entered into with the vendor but support it from another funding source. The obligation, which place the State of Ohio Board of Pharmacy over the normal spending authority with a single vendor, was approved by controlling board based on the grant funds carried by fund 3DV0.
