Non-Substantive Change request for SFC100631

Change Description

SFC0100631 approved 11/9/2015 authorized the release of \$2.4M for two new OFCC school district construction projects. One of these projects was for the Euclid City School District in Cuyahoga. The original funding offer to the district was for a \$97,295,587 project with a state share of \$39,891,191. However, the district failed to accept the conditional approval with 120 days as prescribed by 3318.05. Euclid has now re-submitted their project for approval and this re-approval was given by the Ohio School Facilities Commission at its 4/28/16 meeting. The terms of the funding offer, including the dates and the dollar amounts, are the same as was presented and approved by the previously mentioned Controlling Board action. This non-substantive change is requested to apply the original approval of SFC0100631 to the re-approval of the original funding offer with the same terms.
